

Zhijie Wei

Profile

I am an undergraduate in Software Engineering and Management at University of Gothenburg in 2022.

- I am careful, resistant to stress, self-motivated with a strong desire to learn new things and like to take my own initiative.
- I am active, like to cooperate in teamwork and open to new ideas and willing to listen to advice from colleagues.
- I have great passion for software development and Quality Assurance and I aim to seek new challenges in the software industry in Sweden. My biggest advantages are my competence and positive attitude.

★ Personal projects

Optimal Recipe Blog

(Dec,2022- Jan,2023)

A Content Management System (CMS) showcasing different kinds of Asian cuisine with full markdown recipes, author information and comments.

Tools: React.js, Next.js, graphql, Hygraph(GraphCMS), TailwindCSS, Vercel.

Deploy at: <https://optimal-recipe-blog.vercel.app/>

modernApp application

(Dec,2022- Dec,2022)

ModernApp is a full-fledged, cool-designed landing page showcasing one software company's webpage.

Tools: React.js, React-bootstrap, styled components, React-icons.

Deploy at: <https://modern-mobile-app.netlify.app/>

Keep Fit Fitness application

(Oct,2022-Nov,2022)

A fitness training application that helps you browse 1000+ exercises with examples, similar exercises. You can choose target muscle groups to workout in the gym.

Tools: React.js, React-icons, material-UI, Rapid API.

Deploy at: <https://keepfit-fitness.netlify.app>

Personal Portfolio

(Aug,2022- Sep,2022)

My portfolio of my resume of introducing my background, projects and technologies I have learned and used in 2022.

Tools: React.js, Next.js, React-icons, styled components.

Deploy at: <https://zhijiewei.netlify.app>

Robot Framework Automation exercises

(Jul,2022- Aug,2022)

Basic web automation testing using Selenium Library and Python. It includes test cases, mouse actions, buttons and connects with Jenkins to implement basic pipeline script. **Tools:** Robot Framework, Selenium, Jenkins, Pycharm.
